

### Notification of APCAB 2016 Conference for Student Grants

No.	Name-Surname	Address	Country	Abstract Title
1	Ms. Maya Puspita	University of South Brittany	France	Antiviral activity and cytotoxicity of French <i>Sargassum muticum</i> polysaccharides against Herpes-Simplex virus and its seasonal variation
2	Mrs. Piya Roychoudhury	University of Calcutta	India	Biofabrication of gold and silver nanoparticle using fractioned cellular components of Eukaryotic algae and Cyanobacteria
3	Ms. Ke-Xin Yu	Universiti Kebangsaan Malaysia,	Malaysia	Larvicidal activity, morphological aberration, histopathological alteration and <i>in vitro</i> enzyme inhibition induced by the green seaweed <i>Bryopsis pennata</i> in <i>Aedes aegypti</i> and <i>Aedes albopictus</i> mosquitoes
4	Mr. Joemark Narsico	University of the Philippines Diliman	Philippines	Isolation of an alginate-assimilating marine bacterium and partial characterization of its alginate lyase
5	Ms. Pui Ling Tan	University of Malaya,	Malaysia	Molecular delineation of species in <i>Halymenia</i> (Halymeniaceae, Rhodophyta) from Southeast Asia
6	Mr. Norman James Panganiban	University of the Philippines Los Baños	Philippines	Growth and Phycocyanin Pigment Responses of <i>Spirulina platensis</i> Gomont BIOTECH 4012 Cultivated in Polyethylene Photobioreactors
7	Ms. Darryl Joy Juntilla	University of Tsukuba	Japan	Identification of extracellular proteins from <i>Aurantiochytrium</i> sp. 18W-13a
8	Ms. Risa Swandari Wijihastuti	Murdoch University.	Australia	Biomass productivity and photosynthesis of different <i>Botryococcus braunii</i> races grown in biofilm
9	Mr. Wilfred John Eria Santianez	Hokkaido University	Japan	Diversity, phylogeny, and distribution of <i>Hydroclathrus</i> (Scytosiphonaceae, Phaeophyceae) in the Pacific
10	Ms. Vanessa Urrea Victoria	University of São Paulo	Brazil	<i>Sargassum stenophyllum</i> as functional antioxidant source: thermal stress
